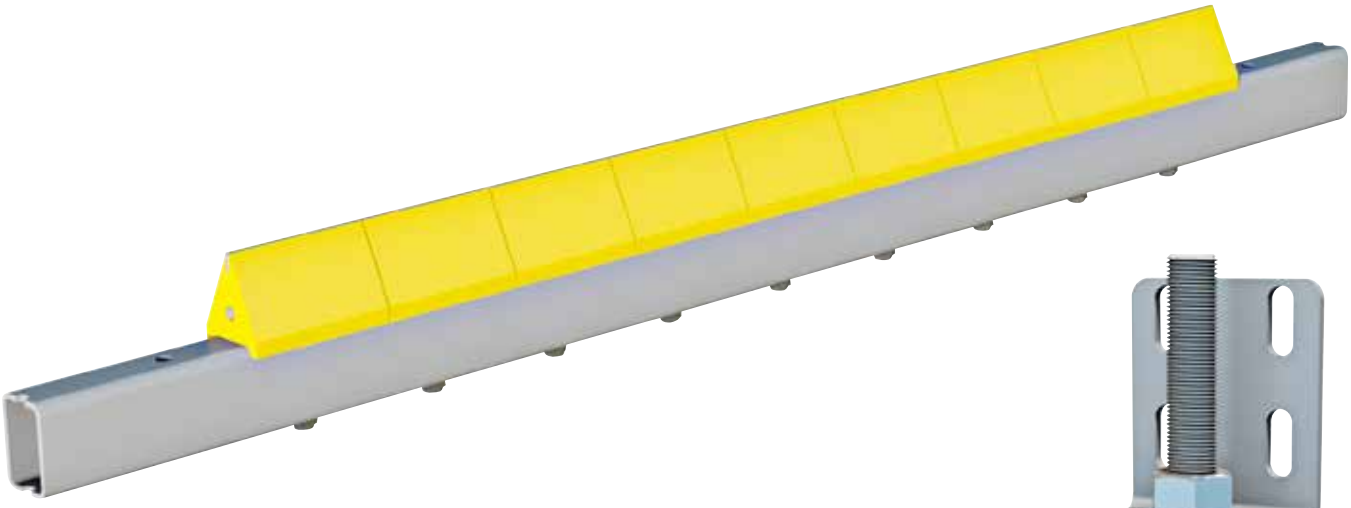
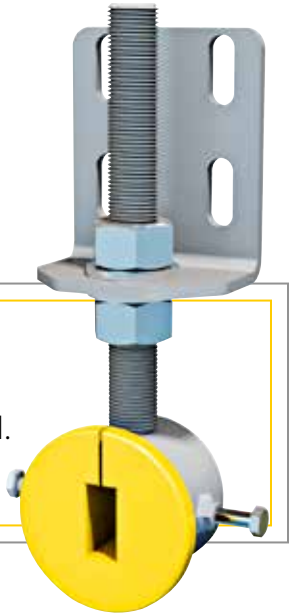
FLEXUS 2 9750

FLEXUS 2 WITH CARBIDE
– Scraper board for reversible operation.

Flexus 2 9750 is a scraper board for reversible belts. The carbide blades are embedded in the individual polyurethane scraper segments. Flexus 2 fitted on the underside of the return party, usually as a substitute for a return roller or between two return rollers.





We supply Holder PL-1 adjustable (9380)
An adaptor 9777 for Flexus 2 is also included.
